## UPDATED NOTICE OF REVISED SERVICE ALTERATION CHARGES

NGN Service alteration charges are being revised with effect from 10 April 2010 in order to reflect changes in the costs of providing these services. The standard charges are increasing by approximately 12%. However a new charge is being introduced to cover reduced scope of work alteration scenarios such as 'back to back' alterations and emergency control valve moves. The introduction of this new charge will benefit customers by offering a price for this type of work which is nearly 50% cheaper than what would have been charged previously.

The details of the charges are set out in summary below:

32mm Domestic service alteration requiring up to and including three metres of external pipe work	£532
Additional per metre charge for any additional external pipe work over three metres	£41
Domestic back to back (reduced scope) meter alteration	£271

The prices are exclusive of VAT will apply to quotations issued from the 10 April. Quotes issued prior to this date will be honoured at the original price provided the quotation is accepted within the appropriate validity period.
