

## GT 'Fast Track' self quotation Acceptance for an NDM GT Connected System Exit Point - Schedule 1&2 (Annex B)

To be completed for GT self connections within the scope of Northern Gas Networks standard design pressure tables in NGN/SP/NP/14/E or GT self connections following confirmation of available pressure from Northern Gas Networks without reinforcement (ONLY) and in accordance with the relevant business rules as published by Northern Gas Networks from time to time.

From GT to Northern Gas Networks:			
GT Ref Number		Date of Request	
GT Name		For the attention of (refer to www.northerngasnetworks.co.uk)	
Address (incl. postcode)		Northern Gas Networks Ref Number (if applicable)	
		GT Contact Name	
GT Signature		Job Title	
		GT Telephone Number	
		GT Fax No.	
GT Site Information			
CSEP Name		Requested Connection Location	Easting
Site Name			Northing
Site Contact		Anticipated Connection Date	
Street		CSEP Development Period (Years)	
Town		CSEP Connection scaled location plan enclosed?	
County		Is this the Initial Request?	Yes / No
Postcode		If No, existing Site Works Ref No	

Load Details	Year	EUC01B (Domestic)			EUC_____** (Non Domestic)			Max CSAQ for all EUCs (kWh)	Max CSEP Offtake Rate (kWh/h)
		No. NDM Conns	CSAQ (kWh)	SHQ (kW)	No. NDM Conns	CSAQ (kWh)	SHQ (kW)		
<b>A</b>	Year 1								
	Year 2								
	Year 3								
	Year 4								
	Year 5								
	Year 6								
	Year 7								
	Year 8								
	Year 9								
	Year 10								
<b>B</b>	<b>Maximum Potential Load, A plus additional Condition 16</b>								
	Future								

\*\* For each EUC, the category, number of connections and CSAQ offtake rate must be stated for each year.

For industrial/commercial premises indicate the following:

Type of Load (eg. modulating, constant, process/on-off/CHP) .....

Is the proposed load requested to be Interruptible? Y/N (if not completed assume Firm)

Will a compressor be fitted? : Y/N

Further information may be provided on a separate sheet. Please indicate here if attached:

Please confirm company name for the following GIRS registration scopes:

Design: .....

Construction/Commissioning/Connection (Routine): .....

Construction/Commissioning/Connection (Non Routine): .....

Project Management: .....

## GT 'Fast Track' self quotation Acceptance for an NDM GT Connected System Exit Point - Schedule 1&2 (Annex B)

<b>Pressure Details</b>	Does this request include more than one ISEP Yes / No			
	Note: Where the site has more than one ISEP please complete a separate acceptance form for each, including the Northern Gas Networks and GT reference number for each form.			
ISEP No.				
ISEP Location				
<b>Pressure</b>	Minimum GT Design Pressure (mbar)	A	B	
	Interim Minimum GT System Design Pressure (mbar)	A	B	Period when Interim Minimum GT System Design Pressure Ends
	Network pressure regulating equipment is designed to deliver a maximum operating pressure of			Pressure at this ISEP (mbar)
	Type of pressure control			

Connection Description					
General Comments					
Engineering Difficulties					
Network Parent Main	Type				
	Description				
Indicated Pressures (mbar) (Only completed where non-domestic premises)		Year 1		Year 5	
		A	B	A	B
Peak Hour Peak Day Pressure					
Peak Hour Minimum Day Pressure					
Minimum Hour Peak Day Pressure					
Minimum Hour Minimum Day Pressure					

When designed using standard design tables in NGN/SP/NP/14/E only load, length, connection size, mains system extremity pressure and plan showing proposed connection point are required for design submission purposes.

Use of the design tables indicates that there is a post-Acceptance review required. Yes / No

I confirm on behalf of ..... ( the "Customer") that the proposed connection at the above site will operate with a pressure of ..... (mbar), and I confirm that ..... will be undertaking the Final Connection works subject to the terms and conditions of the UIP/GT Connection, Service Disconnection and Service Alteration Agreement entered into between Northern Gas Networks and the Customer. In addition, I acknowledge that the carrying out of the proposed Connection will be subject to;

- i) the submission to and approval by Northern Gas Networks of a full final connection design submission, including the pressure drop utilised on mains extensions from connection point to extremity
- ii) the issue by Northern Gas Networks of an Authorisation,
- iii) the submission to and approval by Northern Gas Networks of a Routine or Non Routine Procedure (if applicable) under Northern Gas Networks Safe Control of Operations procedures,
- iv) the terms and conditions of the General Conditions of Contract for Site Engineering Works for Connected Offtake Systems.
- v) any express variations or amendments in the Authorisation (as the case may be).

(NGN Contract details can be found at [www.northerngasnetworks.co.uk](http://www.northerngasnetworks.co.uk))

Connection works on site are anticipated to be completed on.....
