Foreword

This booklet sets out the metering charges that Northern Gas Networks Limited will apply for services provided under the Uniform Network Code from 1 June 2016.

The diagram below shows Northern Gas Networks Limited's operational area.

The level of the Northern Gas Networks Limited metering charges is regulated by a price control set by Ofgem, the gas industry regulator. To achieve price control, Ofgem has set tariff caps for four key metering services. Northern Gas Networks Limited's charges for these services must not exceed the tariff caps, which are increased each year by inflation.

Charges will apply in respect Northern Gas Networks Limited's meters in its gas distribution network. On 1st April 2014 Northern Gas Networks appointed National Grid Gas as backstop provider of last resort (BSPOLR) domestic meters and on 1st March 2015 sold its existing domestic and non-domestic meters to National Grid Gas. In consequence Northern Gas Networks no longer provides metering services and this charging statement has been amended to reflect this.

Northern Gas Networks Limited would welcome your views on any aspect of its metering service, its charges or the contents of this statement.

For further details of these services please email:
Simon Chaffer - schaffer@northerngas.co.uk

The latest version of this publication is available from Northern Gas Networks website at www.northerngasnetworks.co.uk

1. Introduction

Northern Gas Networks Limited provides gas transportation and daily meter reading services throughout its area of operation.

Northern Gas Networks Limited is an Ofgem Approved Meter Installer (OAMI) and provides a range of meter installation and maintenance services.

This publication sets out Northern Gas Networks Limited's charges from 1 June 2016 for its metering services provided under the Uniform Network Code.

2. Charges effective from 1 June 2016

2.1 Introduction

This section sets out the charges for the Uniform Network. This document does not override or vary any of the statutory, licence or Network Code or other contractual obligations upon Northern Gas Networks Limited.

2.2 Dataloggers (This charge excludes the daily meter reading charge set at the tariff cap)

Datalogger charges apply to all dataloggers at daily metered supply points, as defined by the Uniform Network Code. The tariff cap for this activity continues to be subject to adjustment in line with inflation

| | Pence per day | £ per annum |
|--------------|-----------------|----------------|
| Total | 144.0601 | £527.26 |

2.3 Prime & Sub Meter

Provision of meter reading services to shippers for meters at Sub-Deduct Arrangements as defined in Uniform Network Code (UNC) Transportation Principle Document (TPD) Section G1.8. Invoice arrangements for such reads are managed through Xoserve on behalf of Gas Transporters in accordance with UNC TPD Section S arrangements.

| | Cost |
|---------------------------------|--------------|
| (N05) Monthly Read | £7.37 |
| (N06) Domestic Non Monthly Read | £3.37 |
| (N07) I & C Non Monthly Read | £5.79 |
| (N08) I & C Opening Reads | £8.63 |

3. Metering Charging Methodology

In addition to publishing its charges, Northern Gas Networks Limited's Gas Transporters Licence requires it to publish an explanation of the methods by which and the principles on which its charges are calculated.

Northern Gas Networks Limited's metering charges are set so that they are in line with the price control set by Ofgem, the gas and electricity market regulator. To achieve price control for metering services, Ofgem has set tariff caps for four key services. Northern Gas Networks Limited's charges for these services must not exceed the tariff caps, which are increased each year by inflation calculated in accordance with the methodology set out in Northern Gas Networks Limited's GT licence. As Northern Gas Networks no longer owns domestic meters, only the Dataloggers DM Daily Meter Reading charge is relevant.

Charges will apply in respect of Northern Gas Networks Limited's meters in its gas distribution network.

Metering Tariff Caps from 1 June 2016

| Service | Tariff Cap |
|------------------------|------------|
| DM Daily Meter Reading | £527.26 |
