## Directors' report

For the year ended 31 December 2012

The directors present their Annual Report on the affairs of the company, together with the accounts and auditor's report, for year ended 31 December 2012.

### **Principal activity**

The principal activity of the company throughout the year was the provision of operations, maintenance and capital programme services for the North of England gas distribution network.

### **Business review**

Operating profit for the year was £0.1m (2011 - £0.1m) as all costs plus a margin are recharged to Northern Gas Networks Limited ("NGN").

### *Business strategy*

The company's purpose is to operate and maintain the North of England gas distribution network, so that it provides safe and secure gas supplies to the people and the businesses within the distribution network. The company's vision of success mirrors that of NGN, which is to be consistently benchmarked by the regulators, Ofgem and the Health and Safety Executive ("HSE") as being in the top two comparable utilities in safety management, efficiency and customer service.

### *Key performance indicators (KPIs)*

The company is managed as part of the overall group. For this reason, the company's directors believe that further key performance indicators for the company are not necessary or appropriate for an understanding of the development, performance or position of the business. The performance of the group, including the company, is discussed in the Northern Gas Networks Holdings Limited Annual Report which does not form part of this report.

### *Environment*

The company recognises the importance of its environmental responsibilities and undertakes its operations in an environmentally sensitive manner, complying with all relevant legislative requirements and higher standards where possible. The company is committed to the protection of the environment in the region it serves. The company's environmental management systems are certified under ISO 14001 and OHSAS 18001. This helps the directors deal proactively with future environmental issues and legislation and assist in the development of environmentally beneficial projects.

### *Principal risks and uncertainties*

The company's principal risks and uncertainties are set out below.

#### Regulatory environment, revenue and costs

The gas industry is subject to extensive legal and regulatory obligations and controls with which the company must comply. The application and possible changes of these laws, regulations and regulatory standards could have an adverse affect on the operations and financial position of the company or in the case of misreporting, a potential fine.

#### Health and safety

There is a risk that an incident within the network leads to injury to an employee, contractor or a member of the general public. Any such incident could have an adverse affect on the reputation of the company, or lead to potential prosecution or reduced productivity.

#### Network performance

If the network assets were to fail it could result in a loss in supply of gas to customers and associated adverse publicity and an unexpected increase in costs.

#### Employees

The success of the company depends to a significant extent on the contribution of its employees and the employees of operational contractors. Fair and effective recruitment, training and employee development are critical to the successful functioning and progression of the business. The ability to adapt in a climate of change is dependent on the appointment and retention of a high calibre, competent, flexible, quality conscious and customer focused workforce all of whom are committed to business success and are given appropriate training. Appropriate succession planning strategies mean that development of existing staff is crucial. Effective resourcing and selection processes also play a positive role in improving the image of the company in the community it serves.

The company, as an equal opportunities employer, ensures that no job applicant receives less favourable treatment because of his or her age, colour, disability, ethnic or national origin, gender, marital status or sexuality or is disadvantaged by conditions or requirements which are irrelevant to performance and the company's needs.

#### *Outlook*

The directors expect the general level of activity to remain stable following the outcome of the new price control effective from 1 April 2013.

#### **Financial risk management objectives and policies**

The company's financial instruments comprise group borrowings, cash and various items such as trade debtors and trade creditors that arise directly from its operations. There are no key risks associated with these financial instruments as their main purpose is to finance the company's operations. The company does not hold or issue any derivative financial instruments for speculative purposes.

## Directors' report (continued)

### Going concern

The company's business activities, performance and position together with its principal risks and uncertainties likely to affect its future development and performance are set out on pages 1 and 2.

The directors have made enquiries and reviewed the forecasts, including sensitivity analysis, and in light of the facilities available, have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the Annual Report and accounts.

## Directors' responsibilities statement

The directors are responsible for preparing the Annual Report and accounts in accordance with applicable law and regulations.

Company law requires the directors to prepare accounts for each financial year. Under that law the directors have elected to prepare the accounts in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the accounts unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these accounts, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed; and
- prepare the accounts on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the accounts comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditor**

As explained more fully in the Directors' responsibilities statement, the directors are responsible for the preparation of the accounts and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the accounts in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Through management, the directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of accounts may differ from legislation in other jurisdictions.

### **Scope of the audit of the accounts**

An audit involves obtaining evidence about the amounts and disclosures in the accounts sufficient to give reasonable assurance that the accounts are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the accounts. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited accounts. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

### **Opinion on accounts**

In our opinion the accounts:

- give a true and fair view of the state of the company's affairs as at 31 December 2012 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

In our opinion the information given in the Directors' report for the financial year for which the accounts are prepared is consistent with the accounts.

### **Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the accounts are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

## Statement of accounting policies

31 December 2012

The principal accounting policies are summarised below. They have all been applied consistently throughout the year and the preceding year.

### **Basis of accounting**

The accounts have been prepared under the historical cost convention and in accordance with applicable United Kingdom ("UK") accounting standards.

The company is exempt from the requirement of FRS1 (revised) "Cash flow statements" to present a cash flow statement as it is a wholly owned subsidiary of Northern Gas Networks Holdings Limited, which prepares consolidated accounts which are publicly available.

### **Going concern**

The Directors' report includes a note on page 3 stating that the directors consider the business to be a going concern at the time of the approval of the Annual Report and accounts.

### **Stocks**

Stocks are stated at the lower of cost and net realisable value. Provision is made for obsolete or defective items where appropriate.

### **Taxation**

Current tax is provided at amounts expected to be paid (or recovered) using the UK tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the accounts that arise from the inclusion of gains and losses in tax assessments in years different from those in which they are recognised in the accounts.

A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured at the average UK tax rates that are expected to apply in the years in which the timing differences are expected to reverse, based on UK tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

### **Turnover**

Turnover represents income receivable for the provision of services to NGN net of Value Added Tax.

## Statement of accounting policies (continued)

### **Pension costs**

Employees of the company participate in either the Northern Gas Networks Limited Pension Scheme, a defined benefit scheme which is now closed to new entrants or defined contribution pension schemes operated by NGN. The amount charged to the profit and loss account in respect of pension costs is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

### **Leases**

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term, except where the period to the review date on which the rent is first expected to be adjusted to the prevailing market rate is shorter than the full lease term, in which case the shorter period is used.

## Notes to the accounts

The company earns its profits in the UK. Therefore the tax rate used for tax on profit on ordinary activities is the standard rate for UK corporation tax, currently 24.5% (2011 – 26.5%).
