

Complaints Handling Procedure

Northern Gas Networks (NGN) owns the gas distribution network in the North of England. If there is a problem with the service you have received from NGN, or our partners, you can contact us in writing, by email or telephone, or in person.

To help us deal with your complaint as quickly as possible, please provide us with as much information as you can, including the work reference number if you have it.

What we'll do to put things right...

Step 1: Complaint received by our Customer Care Team

We treat all complaints seriously and confidentially. You can be sure your complaint will be handled in a courteous, prompt and straightforward manner.

A member of our Customer Care Team will contact you to acknowledge receipt of your complaint and then carry out a full investigation. We aim to respond to your complaint within 5 working days.

Our response will have details of the investigation and, where appropriate, an explanation and/or an apology will be made. If appropriate, confirmation of any compensation due under our Standards of Service* will be provided.

Where action is needed to put things right, we will try to resolve the matter as quickly as possible. Sometimes this will mean making a home/site visit to resolve your complaint or enquiry. If this is the case, we will find a time that is convenient for you.

We will aim to resolve your issue within 5 days if no site visit is required. If a site visit is required, we will aim to resolve your issue within 10 days. If it's not possible to respond to you within these timescales, for example where we need to contact third party organisations, we'll be in touch to let you know when you can expect a response.

Step 2: If you're not satisfied, what happens next?

If you do not believe your issue has been resolved, we will then escalate the matter to the relevant Senior Manager.

They will carry out a full investigation and respond to you when all the facts have been examined.

Their response will provide you with details of the steps we have followed and an explanation and/or apology will be made where appropriate. You may also receive confirmation of any compensation due under our Standards of Service* if that applies to your complaint.

We will aim to respond to you within 10 days.

Step 3: What if you're still not happy?

If you are still unhappy with the response you have received, your complaint will be escalated to be reviewed by a director who will make an independent decision based on all previous correspondence. The director will aim to respond to you within five days.

Step 4: Independent review by the Energy Ombudsman

While we always do our best for customers, we know that we may not always succeed in resolving your complaint. If you remain unhappy with the service you have received from us, you can seek the assistance of the Energy Ombudsman.

The Energy Ombudsman is an independent consumer organisation created by government to protect the interests of all domestic and commercial gas and electricity customers. The Energy Ombudsman will ask you for a full account of your dealings with us and investigate your complaint. They will also contact us to gain a full understanding of the complaint from our perspective.

The Energy Ombudsman will accept your complaint if it remains unresolved for over 56 days or if, following step 3, you have been issued with a 'deadlock' letter. This letter confirms that Northern Gas Networks has reached a position where we are unable to help any further.

Energy Ombudsman
PO Box 966
Warrington

*Standards of Service

Northern Gas Networks' activities are covered by a range of standards of performance. These standards cover things like restoring your gas supply after an unplanned interruption or getting a quote for a connection to our network. You may be eligible to receive compensation payments if we do not meet these standards. In such cases, we make compensation payments to you directly or via your gas supplier. You can find details of our standards online at: www.northerngasnetworks.co.uk.

Copies of our Standards of Service are also available in alternative languages, large print or braille on request.

Use of information

Northern Gas Networks use the information gathered from complaints in order to make improvements in the service we provide. We record all complaints to accurately capture:

- Customer contact information
- Date received
- Method of complaint (e.g. email or social media)
- Nature of complaint
- Who is dealing with the complaint
- Progress
- Agreed method of future communication
- Resolution

You can contact us 24-hours a day, 365 days a year.

All correspondence is available in alternative languages, large print or Braille on request.
