Get Connected – Business & Multiple* Property Application Form

*Multiple = 5 or more properties

All sections of this form need to be completed for us to process your application. If you need help filling out this form, please call a member of our team on 0800 040 7766, option 2, between the hours of 8am – 6pm, Monday to Friday.

Your details (The address where all letters and invoices will be sent)

Title: _____ First name: _____ Surname: _____

Company name (If applicable): _____

Property name/number and street name: _____

Address line 2: _____

City/town: _____

County / State / Region: _____

Postcode: _____

Email address: _____

Primary contact number: _____ Alternative contact number: _____

KEEPING IN TOUCH

Please let us know how you would prefer to be contacted:

Telephone ☐ Text ☐

Email ☐ Post ☐

In what capacity are you acting?

Owner ☐ Occupier ☐ Landlord ☐ Architect ☐ Developer ☐ Self-builder ☐

Consultant ☐ Housing association ☐ Local authority ☐ Shipper or supplier ☐

Is there anyone else that we can speak to about this application?

For example, partner / family member / carer / builder

Yes ☐

No ☐

If you said YES, please provide their details on the next page.....

If you said YES, please provide their details below:

Title _____ First name: _____ Last name: _____

Primary contact number: _____ Alternative contact number: _____

Email address: _____

Do you have permission for a new gas connection to be installed?

Yes ☐

No ☐

Are you a VAT registered company?

Yes ☐

No ☐

Not applicable ☐

Your quote

What type of quote would you like to receive?

An 'Indicative cost' is an indication of the price of your required works, and this cannot be progressed to planning or completion of works. **If you intend to go ahead with the works, please select 'A full quote'**

Indicative cost ☐

A full quote ☐

Site details

How many properties do you want to connect to our gas network? _____

If the site address or contact details are the same as the correspondence details you have already provided, you can leave these sections blank.

SITE ADDRESS:

Property name / number and street name: _____

Address line 2: _____

City/town: _____

County/State/Region: _____

Postcode: _____

SITE CONTACT DETAILS:

Email address: _____

Company name: _____

Property details

How would you describe your property?

Terrace ☐ Flat ☐ Semi-detached ☐ Detached ☐

Other ☐ If other, Please specify: _____

Is the building Grade Listed?

Yes ☐ No ☐

Is the property timber framed?

Yes ☐ No ☐ Partly ☐

What type of building do you want to connect?

Existing building(s) ☐

New building(s) ☐

Please note, for new buildings you will need to include a to-scale site plan with your application

Both ☐

Is the building charity or government-owned?

Yes ☐ No ☐

Will the work involve crossing shared or private land that you do not own?

Yes ☐ No ☐

Existing buildings: Has the building been empty for more than 2 years?

Yes ☐ No ☐

Existing buildings: Is the property classed as a conversion, e.g. change from commercial premises being converted to domestic premise?

Yes ☐ No ☐

Existing buildings: Has the property had a gas supply previously or using gas at present?

Yes - property using gas at present ☐

Yes - previous supply no longer in use ☐

No - property has never used gas ☐

Unsure ☐

If you answered Yes to the above question, please provide any additional details you may have (such as meter size or how much gas is being used (Hourly gas load) _____

Gas Load information

This information enables us to provide the correct size pipework for your requirements. We can't provide you with a quotation without it. If you need any advice or guidance, please contact your contractor or a registered Gas Safe engineer via gassaferegister.co.uk or call the Gas Safe Register on 0800 4085500.

If your site is for Multiple connections to domestic properties only, where no gas load details are provided, we will assume the average domestic gas load of <64kW per hour – this is the typical usage for an average 4 bedroom house using a U6 Gas Meter.

Please provide your gas load details below:

Type of Property (e.g. House / Factory / Restaurant)	Number of each type	Hourly Gas Load (kW) per property The hourly gas load is calculated by totaling the kilowatts (kW) used by each gas appliance that will be fed from this supply (for example, 60kW boiler + 30kW heater = 90kW hourly load)	Annual Gas Load (kW) per property The annual gas load can be calculated using the following multiplication: 'Hourly gas load' x 'Usage hours per day' x 'Usage days per week' x 'Usage weeks per year'

Do you need a meter inlet pressure greater than 21mbar?

If you are unsure seek advice from your contractor or Gas Safe engineer

Yes ☐ No ☐

If Yes, please state the mbar that you need? _____

Will you be using your gas supply 24 hours a day, 7 days a week?

Yes ☐ No ☐ Unsure ☐

Meter & Excavation details

Surface Mounted meter box	Built-In meter box	Internal termination	Meter Kiosk	Semi-Concealed meter box	Manifold
Suitable only for hourly gas loads up to <64kW (U6 meters)	Suitable only for hourly gas loads up to <64kW (U6 meters)			Suitable only for hourly gas loads up to <64kW (U6 meters)	

Northern Gas Networks will supply surface mounted or semi concealed meter boxes. If you require a built-in box, you or your builder will need to supply this and build it into your wall. **Northern Gas Networks do not fit gas meters - you will need to contact your preferred gas supplier and arrange for them to fit a meter to your new gas supply.**

More than 65kWh gas loads. If the property has an hourly gas load more than 65kWh, this means the gas meter won't fit into the surface mounted, built in or semi-concealed box options. The meter may need to be positioned internally within the property or housed within in a meter kiosk.

Which kind of meter box/termination would you like?

Where do you want it to be installed? an example answer might be 'left hand wall'

If you selected a Meter Kiosk as your preferred termination type

Do you want the quote to include the installation of the meter kiosk(s)?

You can supply your own meter kiosk or NGN can supply this for you

Yes - NGN to supply & install the kiosk ☐ No - Customer will supply & install the kiosk ☐

Kiosk size/model (if known): _____

Do you want the quote to include the installation of the concrete base for the meter kiosk(s)?

You can install your own concrete base for a free-standing kiosk or NGN can supply & install this for you

Yes - NGN to supply & install the concrete base ☐ No - Customer will supply & install the concrete base ☐

Please add a drawing of your property and include where you would like your meter to go, or any other information which you feel would be useful to help us process your application. Alternatively, you can provide a site plan with your application.

Please bear in mind:

- a) Your meter must be positioned on the wall of the property that faces the gas main or no further than 2m down the side of the property.
- b) Meters must be located in a position where they are not at risk of damage; for example, surface mounted or semi concealed meter boxes cannot be installed on a driveway where there's not enough additional clearance for a car to pass safely.
- c) The meter must be positioned so that the pipework can be diverted to avoid any obstacles that may not show up on a map, for example, a pond or a tree.

Example Site Plan

Who will be doing the digging on your property?

I would like to do my own digging ☐

This means that you will dig the trench where we will lay the gas pipe. You will also be responsible for reinstating (filling in) the trench once we have laid the pipe.

Northern Gas Networks to dig ☐

This means that NGN will dig the trench for the gas pipe and then NGN will also reinstate the trench once the gas pipe is laid.

Site considerations

If your works are to connect multiple properties:

Do you need the works splitting into multiple visits/phases

Yes ☐ No ☐

If you answered Yes to the above question, please confirm how many visits/phases in total will be required to complete the connections work.

Please tell us anything unusual about the site, for example, specialist surfaces such as printed concrete, stone or resin driveways, steep or high boundary walls, streams, access issues, railway crossings, watercourses, conservation area or contaminated land:

Are there any further developments or additional services anticipated on site?

Yes ☐ If yes, please specify: _____

No ☐ Not sure ☐

Declaration

By submitting your application, you agree to Northern Gas Networks processing your personal data to process your connection application. If you accept our quotation, on completion of the connection we may also share your personal information with a nominated third party who may contact you to participate in a customer satisfaction survey to complete in accordance with Ofgem's customer satisfaction survey procedure. Your personal data will be processed and stored in accordance with the Data Protection Act 1998.
