

# Our Guaranteed Standards of Performance

We work hard to ensure that we always deliver the very highest levels of customer service. However, if you feel we haven't come up to scratch you may be entitled to compensation.

The energy regulator, Ofgem, sets performance standards for our sector, set out below. These are known in the industry as Guaranteed Standards of Performance (GSOP). These are our minimum service-level standards that cover restoration of supply, customer communications and connections. If we fail to meet these standards customers are entitled to receive compensation.

We will make payments to you via your gas supplier.

These values are reviewed on an annual basis and adjusted as required in line with annual CPIH percentage increases or decreases, rounded to the nearest £5.
